MEMORANDUM FOR DISTRIBUTION LIST

SUBJECT: Advanced Reconnaissance Study

1. (S/NF) Enclosed GDIP letter directs DIA/DC to form a NFIP team to study potential U-2 replacement platforms for the late 1990s and beyond. Timelines include an interim report by 10 October 1984 with a final report due by 12 December 1984. As such, it is requested that addresses provide DIA/DC with the name of an individual to participate in this study. The first meeting will take place at 1000 on 27 September 1984, in the DIA DC Conference Room, 2D921.
2. (U) The focus of the study is outlined in the enclosed GDIP letter. Many of the items listed have had recent studies completed or are in the process of being studied. It is my intention to use these as a baseline. It is therefore requested that representatives come prepared to discuss any applicable studies they are aware of in order to expedite this action.
3. (U) My action office for this study is Mr. John Allen, DIA/DC-1B, extensions 695-2509/2518, GR 3218/3219, KY 2788.

(S) The study should survey applicable development projects and studies within the Intelligence Community and NASA and being pursued by DARPA and other DoD components and agencies. Study group membership should include as a minimum the Intelligence Community Staff, other interested NFIP managers, and the ASD (C³I).

(S) By 10 October, provide an interim report on the status of the study and on the systems and capabilities under consideration. Include preliminary conclusions and recommendations where feasible. Provide the final report by 12 December 1984.
